Chhun Rachhen

SENIOR SOFTWARE DEVELOPER

About me

Passionate and dedicated software engineer specializing in Full-Stack development, Mobile App creation, and API development. Committed to continuous learning and equipped with a positive mindset, I approach challenges with perseverance. Skilled in making meaningful contributions to the tech industry, with current expertise as a Full-Stack, Mobile App, and API developer. Eager to leverage expertise and determination to excel in new opportunities and collaborate on innovative projects.

Experience

Full-Stack Developer

eOcambo Technology 2018 - 2020

When I was developing a system for internal use. I got a lot of experience. We are using Yii2 Framework as tooling.

Mobile App with React Native

Prointix (Euro Khmer Voyages) 2020 - Present

I'm working on the mobile app with React Native. We are using TypeScript, React-Query, apollo client and zustand as state management. I have connected payment gateway with ABA.

Backend Developer

Prointix (Euro Khmer Voyages) 2021 - Present

I'm working on the backend of the system. We are using NestJs with RestAPI/GraphQL and MySQL as databases. the payment gateway is using ABA. And deploy the system to AWS or Fly.io services.

Education

(2016-2019) Information Technology

Build Bright University Siem Reap Campus

(2018) Trainee as Full-Stack Developer

eOcambo Technology

(2019) Mobile App with React Native

Self-taught
