About me

Dedicated and ambitious Full-Stack, Mobile App, and API Developer with a passion for innovation and continuous learning. Proven track record of perseverance and commitment to achieving goals. Seeking opportunities to contribute technical expertise and creativity to a dynamic team.

Experience

Full-Stack Developer

Euro Khmer Voyages 2018 - Present

When I was developing a system for internal use. I got a lot of experience. We are using Yii2 Framework as tooling.

Mobile App And API Developer

Prointix (Euro Khmer Voyages) 2020 - Present

I'm making cross-platform mobile apps using React Native and API using Nodejs. Some apps use NestJs with GraphQL and MySQL as databases.

Education

(2016-2019) Information Technology

Build Bright University Siem Reap Campus

I finished high school. I want to continue learning IT skills so I'm selecting this university.

(2017-2019) Trainee as Full-Stack Developer

eOcambo Technology

When I'm finished train. I'm applying as a junior full-stack developer here.

(2019-2020) Mobile App and API Developer

Self-taught

When the company needs to develop a mobile but doesn't have a team to handle so learn it myself and develop the apps for the company.
